

## eXtplorer - PHP-based File Manager - Fehler #159

### Right side will not update

02/20/2014 04:05 PM - Deepak Thani

<b>Target version:</b>	
<b>eXtplorer Version:</b> 2.1.4	<b>Joomla! Version:</b> Joomla! 3.1
<b>Description</b> I updated the version to the latest, as i was getting Strict Standards warnings on the older version. Copied the necessary configuration files to the new installation and was able to log in smoothly. The issue now is that when I click a folder on the left, it doesn't update the file listing on the right. No matter which folder I've browsed to the file listing remains the root on the right hand pane. How do I resolve this issue?
