

eXtplorer - PHP-based File Manager - Fehler #163

doesn't update user

05/20/2014 12:25 PM - Chaim Handler

Status: Neu	
Priority: Normal	
Assignee:	
Category:	
Target version:	
eXtplorer Version: 2.1.4	Joomla! Version: Joomla! 3.1
Description explorer works beautifully using admin/admin. when I try to change password, modify or add I receive message "updated successfully" despite the fact that no information was saved or added. There doesn't seem to be anywhere for extplorer to store the information. Apparently I missed some step in the installation procedure. Please inform me what is required.
