

eXtplorer - PHP-based File Manager - Fehler #186

Localization Bug - Single Authentication Method - Shows "You could switch to mode."

04/10/2015 05:13 AM - OwN 3m-All

<b>Status:</b>	Neu		
<b>Priority:</b>	Normal		
<b>Assignee:</b>			
<b>Category:</b>			
<b>Target version:</b>			
<b>eXtplorer Version:</b>	2.1.4	<b>Joomla! Version:</b>	none
<b>Description</b> <p>If only one authentication mode is allowed in the extplorer configuration, the sentence of "You could switch to mode." should not show unless there is more than one authentication method allowed.</p> <p>For example:</p> <pre>\$GLOBALS['ext_conf']['authentication_methods_allowed'] = array('ftp');</pre> <p>FTP is the only allowed authentication method, and yet, I still see the sentence of "You could switch to mode.". This sentence should not show if there is only one authentication method available, as it's very confusing.</p> <p>Attached screenshot shows "You could switch to mode."</p>
