<b>eXtplorer Version:</b> 2.1.4	<b>Joomla! Version:</b> Joomla! 3.1
<b>Description</b>	
<p>EXTplorer keeps trying to load the directory listing over and over when trying to run extplorer. If I try to click on ftp mode and hit escape I can see the following error message: Undefined variable: authentication_type in /home/jackso17/public_html/tdccycle.com/administrator/components/com_extplorer/include/login.php on line 57</p> <p>The page still shows it is not in FTP mode when displaying this error.</p>
