<b>Description</b>		
Great project, just have a small display issue that would be helpful.		
When adding users in standalone mode the admin window doesn't reflect the new user. You must close and reopen the admin window to see the changes.		
Similarly, when modifying a user the admin window doesn't reflect the changes made during the edit.		
I've had similar results with 2.1.0RC3 and 2.1.0RC5.
