

eXtplorer - PHP-based File Manager - Fehler #54

Logout does not work

12/28/2011 09:35 PM - Anonymous

Status: Abgewiesen	
Priority: Hoch	
Assignee: Sören Eberhardt-Biermann	
Category: Bug	
Target version: 2.1.0	
eXtplorer Version:	Joomla! Version:
Description	
<p>Hi, When I click "Logout". the screen refreshes but I'm not logged out. In my setup, there's no way to log out which is obviously very annoying and dangerous. I'm using eXtplorer 2.1.0 on IIS 6.0 with PHP 5.2.10 and I have tried clients Chrome 16.0.912.63 m and Internet Explorer 8.0.6001.18702</p> <p>Please help me out; I seriously think extplorer is one of the best web file managers out there but this is a very serious safety issue.</p> <p>Thanks in advance. Regards, Koen</p>

I guess I caused and solved this issue myself;
As it turns out, session.save_path was not set in php.ini
After updating that, users can now log out.
