

## eXtplorer - PHP-based File Manager - Fehler #8

### Cannot change users' passwords from admin

03/31/2011 11:15 PM - Gary Csorgo

<b>Status:</b> Erledigt	
<b>Priority:</b> Normal	
<b>Assignee:</b> Tim Alatorre	
<b>Category:</b> Bug	
<b>Target version:</b>	
<b>eXtplorer Version:</b>	<b>Joomla! Version:</b>
<b>Description</b>	
<p>I have tried to change other users passwords as the admin user, and both checking the "change password" tick and not changing it, I am unable to change the users passwords. It comes back with the "saved successfully" dialog, but the new password does not work, and the old one does. I have to log in as the user to actually change it, which is not great from an admin point of view. I can create and delete users fine.</p>	

#### History

Fixed it in trunk revision 199

##### #2 - 06/20/2011 09:15 PM - Gary Csorgo

Tim,

Is there a way to access the revisions from this site? The download link still points to a version from February, which does not have the great new fixes. Finding the new revisions should be easy. Thx.
